

Work-Based Learning Training Plan and Evaluation Guide

The NYC Department of Education has developed a Work-Based Learning planning and assessment tool to support Work Experience, Internships and other appropriate Work-Based Learning activities.

The Work-Based Learning Training Plan and Evaluation combines skill development learning objectives, academic enhancements and personal development goals with an assessment of the student's employability skills demonstrated through the experience. The evaluation gauges a student's progress towards readiness for a successful transition into the world of work. It reflects important skills, attitudes, and values that are essential for success in the workplace.

The tool has five components:

Data Sheet

The who, what, where and when of the experience—student information, employer information, experience description and details, school or organization information, work-based learning coordinator contact information, and other details. Enter the information and share with all parties.

Academic Enrichment and Career Development Learning Objectives

A set of key learning objectives centered on academics and personal growth and development. Developed with the work-based learning coordinator and/or teacher and student. Shared with the worksite supervisor and assessed by the coordinator, teacher or supervisor and discussed with the student.

Core Employability Skills Evaluation

An assessment of core employability and job-specific skills demonstrated through the experience. Assessed by the worksite supervisor at the midpoint and at completion of the Internship or work experience.

Occupational Skills Assessment

A set of key additional skill-development learning objectives centered on expanding career knowledge and occupational skills development specific to the experience. Developed with the student/young adult, worksite supervisor and coordinator and entered into the Worksite Supervisor Evaluation Sheet. Assessed by the worksite supervisor. Note: Sample Learning Objectives are provided in the implementation tools section of the Internship Guide in the NYC DOE WBL Toolkit.)

Worksite Supervisor Agreement

A set activities and commitments for the worksite supervisor to sign and date.

WBL Coordinators, Teachers, Students and Worksite Supervisors develop the plan together prior to the internship or work experience, and use it to document student skill development and learning gains at the mid-point and end of the WBL experience.

Worksite Supervisor Evaluation

Worksite Supervisors are asked to assess student performance at the mid-point and conclusion of the internship on the following skills. The evaluation legend is provided below.

Top Ten Employability Skills¹
