can help them meet learning

Help student craft questions

Career Mentoring is designed to:

- Give students exposure to jobs, careers, and industries.
- Offer the opportunity to build a relationship with a caring and knowledgeable adult.
- Offer a chance to practice communication skills and develop professional skills.
- Help students make connection between school and the workplace.
- Inform career planning.

| | Review the Career Mentoring Fact Sheet and this tip sheet. Identify interested and qualified students and help the coordinator select career mentors who are compatible with the students. (When possible, let them interview and select each other.) Assess how career mentoring can support classroom activities and help meet curriculum goals. Identify desired student learning objectives. These should include personal, academic, occupational and work-readiness objectives. | After Career Mentoring Spark student reflection with an activity. Ask, "What new things did you learn about the workplace and careers?" See if they want to find out more or further explore careers in the mentor's industry. | | | | | |
| J | Regularly provide the mentors with information about what students are studying so they can | | | | | | |
