

Internship Student Research Activity

Complete the following research assignment as part of your preparation for the upcoming internship.

Student name:
Company where you will do your internship:
Company's web address:
Company's physical address:
Company's mission statement:
What is the company's primary business?
In which department (if there is more than one) will you intern?
What can you learn about that department (or if no specific department, what have you learned about the company overall)?
What companies do you think are in competition with your internship company?
After researching your company, what are some questions that you will ask during your internship?
Based on your research, what do you think you will like most about your internship experience? Why?
Based on your research, what is your biggest concern about your internship experience? Why?
If you could complete your internship having learned one thing, what would that be? Why?
What else did you learn while doing your research that you'd like to share with your teacher or the class?
Look up the directions for how to get to your internship (from school, from your home, walking, public transportation, driving). Print out the directions so that you can take them with you. Have you printed the directions?
How long will it take you to travel each way to and from your internship?
